Research Associate in Engineering

University of Louisiana at Lafayette invites applications from candidates with a minimum of bachelor’s degree in Engineering or applied field. Candidates with Master’s degree in Engineering will be preferred. The applicant will participate in day-to-day research activities of the Center for Structural and Functional Materials in the broad area of structure-property correlation in materials. Experience in materials characterization techniques is desired.

Considerations will begin immediately and will continue till the position is filled. The appointment start date is September 1, 2009 for an initial period of 1 year and may be extended. Candidates should send a letter of application, a resume indicating their experience and arrange at least one reference letter to be sent to:

Dr. Devesh Misra  
Stuller Endowed Chair in Metallurgy and Professor  
Department of Chemical Engineering
